ART.1 – INTRODUCTION

- 1.1. The Automóvel Club de Portugal (ACP) organizes the **36th BAJA PORTALEGRE 500**, from 27th to 29th of October 2022. This event is a part of the FIM Bajas World Cup, and the Portuguese Cross-Country Championship, and occurs simultaneously with a car event (FIA World Cup for Cross Country Bajas).

General Undertakings and Conditions

All competitors, teams, officials, and other parties participating in the FIM Bajas World Cup undertake, on behalf of themselves, their employees, and agents, to observe all the current provisions of the:

1. FIM Sporting Code
2. FIM Bajas World Cup Appendices
3. FIM Bajas Technical Regulations
4. FIM Disciplinary and Arbitration Code
5. FIM Environmental Code
6. FIM Medical Code
7. FIM Anti-Doping Code
8. FIM Code of Ethics
9. FIM Yearbook
10. FIM Organiser's Work Book (if available)
11. Supplementary Regulations

as supplemented and amended from time to time (hereinafter collectively referred to as the "FIM Bajas World Cup Regulations").

It is the responsibility of each competitor and/or team to ensure that all persons involved with their entries observe the FIM Bajas World Cup Regulations at all times.

All persons concerned in any way with an entered motorcycle/**SSV** or present in any capacity whatsoever in the technical and administrative area must carry an appropriate pass at all times during the meeting.

Actions judged by the officials responsible to be contrary to the FIM Bajas World Cup Regulations - or judged to be unsportsmanlike or against the best interests of the sport or the meeting in question - are subject to disciplinary actions as provided by the FIM Arbitration and Disciplinary Code.

The interpretation of this current Regulations and the Supplementary Regulations is the responsibility of the CTT (see Art. 4 of the FIM Sporting Code). Any matter not provided for therein will be subject to interpretation by the FIMI International Jury.

FIM titles for which the BAJA counts

- FIM Bajas World Cup Bike, for competitors and manufacturers
- FIM Bajas World Cup – Quads, for competitors
- FIM Bajas World Cup – Women, for competitors
- FIM Bajas World Cup – Junior, for competitors
- FIM Bajas World Cup – SSV (Driver and Co-Driver)
- FIM Bajas Trophy – Veterans, for competitors

Others

- National Championship (FMP)
- Yamaha YXZ1000R European Cup Superfinale (SSV)
- Mini Baja FMP (national event)

Visa details – FIM and FMP

FIM Approval No – [IMN:814/08](#)

FMP Approval No – [approved on 24/08/2022](#)

Modification, amendments and/or changes to these Supplementary Regulations will be announced only by numbered and dated Bulletins issued by the Organizer and approved by the FIM International Jury and the FMN (FMP).

1.2. Description of the Event

- October 26, accreditations, and service park installation.
- October 27, accreditations, and administrative and technical checks;
- October 28, the Leg 1 includes a Qualifying Special Stage (QSS1) of approx. 5 km and SS2 of approx. 70 km
- October 29, the Leg 2 include the SS3 of approx. 350km. Every 85km, maximum, areas of refuelling or service will be placed.

The route shall be kept secret. Only SSV have a SS Road Book. The route is marked with arrows, plastic tape and some paints for the Bikes and Quads.

For Bike and Quad roadbooks will be handed out just for liaison sections.

Average altitude of the total distance of the SS's is 500 meters.

1.3 Route Conditions (Selective Stages)

Gravel/dirt tracks 100,00 %

1 TEAM MANAGER sticker (access to Nerpor, Services Areas, and Start / Arrival of the SS)
1 Competitor(Bike/Quad) or 2 Competitors (SSV) Individual Pass
1 Team Manager individual passes (access to Secretariat)

**AUTOMÓVEL
CLUB DE PORTUGAL**

Rua General Humberto Delgado, 3
2685 - 340 PRIOR VELHO
Tel: 351 219 429 187 Fax: 351 219 429 192
acpmotorsport@acp.pt

4 Assistance individual passes

Rental of Anube STELA III (SSV and Quad) or SPICA III (bike) equipment (Vehicle to vehicle communication system, speed control zones, and GPS-GSM / Safety tracking system)

Road Book roll or notebook for SSV (upon competitor's choice at time of registration)

Additional SERVICE stickers / Passes fees:

EUR 600 – Truck

EUR 400 - Auto / Van

EUR 300 - Personal Assistance Pass

EUR 200 - Guest Pass (maximum 4, bivouac access)

7.3 Without payment the entry will not be considered.

7.4 The date of reception of the entry fee will be considered to establish the entrant's list. The organization reserves the right to refuse the entry to pilots or teams that have been disqualified in previous editions of the race for unsportsmanlike behaviour.

7.5 Entry fee refunds

The entry fee shall be refunded in full

- if the event does not take place
- to teams whose entry application is rejected

The organiser may partially refund entry fees, if a competitor cannot take part in the event due to a duly proved case of force majeure, subject to the application reaching the organiser per email.

The deduction will be:

- 25 % of the entry fees for requests received until 30 days before the administrative checks
 - 50 % of the entry fees for requests received until 8 days before the administrative checks
- There will always be a deduction of 25% (file fee).

Other situations of *force majeure* not mentioned are subject to analysis and approval of the Organising Committee.

ART.8 – INSURANCE

According to Art. 110.1.1 of the FIM Sporting Code.

8.1 Automóvel Club de Portugal, as well as the Organizing Committee, declines all responsibility for any accident that may occur during the 36th edition of the Baja Portalegre 500.

ART.9 – IDENTIFICATION

9.1 The organizer will provide each competitor with 3 plates with the competition numbers, 2 advertising plates and 1 bib (Cat. 1, 2 and 4, measuring 20cmx10cm and 27x20 for Cat. 3) with the race number.

9.2 All plates must remain throughout the whole event according to Appendix I. The use of the bib during the whole event is compulsory.

9.3 If at any moment of the event a bib and/or plate are missing or wrongly fixed the penalty will be:

First infringement	1 hour time penalty
Second infringement	Exclusion

ART.10 – ADVERTISING

10.1. The compulsory advertisement is: **PORTALEGRE / PONTE DE SOR / BP**

ART.11 – TRAINING AND RECONNAISSANCE

11.1. Start will be denied to all crews detected by members of the Organizing Committee while training on the race tracks. The race will take place in the municipalities of: Alter do Chão, Abrantes, Chamusca, Crato, Extremoz, Gavião, Monforte, Nisa, Ponte de Sor and Portalegre.

ART.12 – ITINERARY

12.1. The official itinerary is defined by the Road Book and for the arrows, tapes, and paintings. It is absolutely forbidden to competitors out of the itinerary, unless in the event of a track obstruction otherwise, **the penalty may go to exclusion**. In such a case, the competitor may pass around the obstacle and go back to the itinerary immediately after.

The participants of the 36th Baja Portalegre 500 will be monitored by Spica III or Stella III control equipment. Those who make cuts or shortcuts on the course will be sanctioned. It is mandatory to pass through all the areas defined by signage and Road Book.

It is considered a cut or shortcut whenever a vehicle leaves the marked course (natural limits of rural, forest and private roads, boundary paths of agricultural fields, etc...)

The calculation of the difference in distance (in meters) between the route set by the organizer and the route taken by the vehicle in competition, incurs a penalty calculated as follows. Each unit of distance (meter) calculated on the previous difference is given a penalty of 10 seconds.

Riders must maintain a respectful attitude towards the environment, forest and private roads, farms, and comply with the highway code when driving on public roads.

ART.13 – ADMINISTRATIVE CHECKS

13.1. Location

The Administrative checks will take place on October 27.

Location: NERPOR

Schedule: will be published in a Bulletin.

13.2. Original documents to be presented

- Sporting License according to the Art. 6.1
- Rider's ID;

13.3. Time controls

All the entrants must present themselves according to the established timetable. Any delay at the presentation will result in the following fines:

from 1 to 15 minutes	150 €
from 16 to 30 minutes	250 €
> 30 minutes	Start may be denied

ART.14 – SCRUTINEERING

14.1. Location

Scrutineering will take place on October 27. The exact location and schedule will be published in a Bulletin.

Timetable

According to the program. The exact schedule will be published by means of a bulletin.

14.2. Technical scrutineering for bikes and quads include:

- Placing of advertising;
- Number plates;
- Front lights and stop with fixed and final installation (must be nourished always by an alternator powered by motorcycle engine);
- Vehicle registration plate;
- Frame number (must match the registration);
- Protection pad located in the middle of the handlebars;
- Helmet

14.3. Technical scrutineering for SSV include:

- Placing of advertising;
- Number plates (should be placed in a "quad type flag" which should be fixed at the highest point of the vehicle structure or on the back);
- Front lights and stop with fixed and final installation;
- Battery switch operation;
- Fitting of safety-belts;
- Placement of the lateral protection nets;
- Plate number;
- Frame number (must match the registration);
- Helmet, Hans and Fireproof Clothing

14.4. All the entrants must present themselves with their vehicle according to the established timetable.

Any delay at the presentation will result in the following fines:

from 1 to 15 minutes	150 €
from 16 to 30 minutes	250 €
> 30 minutes	Start may be denied

14.5. After completing scrutineering, vehicles must be driven by one of the drivers or a team representative to the ceremonial start holding area.

14.6. Any delay at the entrance of the Parc Fermé will result in the following fines:

from 1 to 15 minutes	150 €
from 16 to 30 minutes	250 €
> 30 minutes	Start may be denied

14.7. Additional checking of the vehicles/documents may be carried out at any time during the race. Any rider refusing his vehicle/documents to be checked will be subject to a penalty, which can lead to exclusion, after decision of the Jury.

14.8. The rider is the only responsible for the posting of any identification mark on the vehicle and it's his/her only responsibility to guarantee his/her protection until the end of the event. Should it be missing, the vehicle will be immediately excluded from the race.

14.9. A complete scrutineering involving the dismantling of the vehicles in the first places of the general classification and/or each class, may be carried out at the absolute discretion of the Jury of the meeting or following a protest or upon the decision of the clerk of the course.

ART.15 – SERVICE AREAS (ZA) AND REFUELLING AREA (GAS)

THE MAXIMUM SPEED PERMITTED IN THE SERVICE AREAS (ZA) (including NERPOR) and GAS (refuelling only) is 30 km/H.

Speed control will be performed by the Stella III (SSV and Quad) and Spica III (Moto) devices, Appendix V.

15.1 Repairs are free on the road sections and permitted on the selective sections under the following conditions:

- a) At any point of the SS:
 - By the rider concerned;
 - By any other rider in normal racing conditions.
- b) At the service areas (ZA):
 - By the rider concerned;
 - By any other rider in normal racing conditions;
 - By any other person identified as Service by the stickers supplied by the organization.
- c) At Nerpor and during liaisons (from Parc Fermé to the SS start and SS finish to Parc Fermé).
 - By the rider concerned;
 - By any other rider in normal racing conditions;
 - By any other person identified as Service by the stickers supplied by the organization
(Service is prohibited in the last 3km before the start of the SS and in the 1km after the end of the SS)

Any violation of the above rules will incur a penalty defined by the Jury.

- 15.2** The use of eco-friendly mats during refuelling is mandatory, as well as have a fire extinguisher of at least 5 kg. Non-usage of an eco-friendly mat implies the penalty for breach of this regulations will be a fine of 100 € for each offence (according to ART. 82.16.4 FIM Regulations). **The use of these mats at Parc Fermé is mandatory.**
- 15.3** The exact location of the service areas (ZA) and/or refuelling areas (GAS) will be a maximum of 85 km from each other and informed during the Briefing or by information distributed at the checks. The distance for each Service Area will be marked along the way by means of plates, every 10 km, indicating the number of kilometres – decreasing – to the nearest assistance.
At GAS, only the refuelling is permitted.
- 15.4** There will a service with limited time before the end of Leg 1, Service A, after SS2 (3h00). **The 3 hours start at the entrance to the Service Area (time control 2B, Gate 2 of the Layout in Appendix VIII) and end with the entrance to the Parc Fermé.**
- 15.5** Only the vehicles with a service sticker delivered by the organisation will be admitted at the service areas.
These stickers should be visibly placed on the front windscreen. Each crew will receive 2 service plates free:
- **BIKE / QUAD**, allows access to NERPOR, ZA and GAS to the SS.
 - **SSV**, allows access to NERPOR, ZA and GAS to the SS.
 - **TEAM MANAGER (ONLY FOR THE TEAMS)** allows access to NERPOR, ZA, GAS to the SS, and the start and arrival of the SS (*if is authorized*).
- 15.6** It is expressly forbidden to refuel with running engine. The non-compliance with this rule will incur into a **penalty of 30 min.**, in case of recurrence to exclusion.
- 15.7** It is expressly forbidden to refuel outside the service areas, ZA or GAS. The observance by members of the Organization of the non-compliance of this article implies into disqualification.
- 15.8** The fuel transport in tanks that are not fixed to the structure of the vehicle is prohibited, resulting in a penalty of 30 minutes and in case of repetition to the disqualification.
- 15.9** **For the SSV** in any Service Area or GAS, located in the SS, it's required, the stop in a minimum period of 2 minutes. This time is controlled by Stella III system and this time is for the responsibility of the Rider. The 2 minutes starts when the vehicle is immobilized, in the service area, and this 2-minute stop, when the vehicle restart the march, in the same place.
- During refueling, no further intervention on the vehicle is permitted.
 - The Stella III equipment displays the countdown on the screen.
 - The engine must be Off when the vehicle is immobilized.
 - The non-compliance with this rule will incur into a penalty of 10 minutes for each infringement.

15.10 Number of tyres (according 82.7.4 FIM Regulation)

The number of tyres is limited to one set (front(s) and rear(s)) per race day. When the day is composed of several stages, the tyres could be marked by the FIM Technical Director and/or his appointed crew.

ART.16 – QSS1 (QUALIFYING SPECIAL STAGE) / RECONNAISSANCE / FIXED PENALTIES / MAXIMUM TIME OF THE SS

16.1 The QSS1 will take place on October 28, in form of a special stage with the length of aprox. 5 km. The time obtained at QSS1 will serve to set the starting order for SS2. The starts for QSS1 will be given in ascending order. Bikes first, followed by Quads and finally SSV.

The reconnaissance of the QSS1 may be done according to the schedule on the October 27, between 10h00 and 16h00, by foot, normal bicycle, or electric bicycle. Riders must be identified with the bracelet placed at the Accreditations.

16.2 It is absolutely forbidden to cut or short cut, and the riders must follow the route indicated by the arrows and plastic bands. Non-compliance with this rule will be punished with the penalty will be awarded by the FIM International Jury of the race. In the event of a run-off, riders shall return to the track at the same place.

16.3 If the route is blocked, riders can leave the route to go around the obstacle and must return to it immediately after. In no case whatsoever shall there be neutralization or a deduction concerning the time spent to do the itinerary. It will not be allowed to repeat the QSS1.

16.4 The maximum time to run the QSS1 will be 30 minutes.

16.5 The time set at the QSS1 will count for the final classification.

16.6 In the event of a dead heat, the riders with the same time in the QSS1 shall start for SS2, according to the order of their numbers.

16.7 The possible penalties registered at the different controls at Leg 1; do not influence the classification of the QSS1, or the start to SS2.

16.8 a) If a rider does not complete QSS1 within the time limit, he will be given the maximum time for the QSS1 (30 minutes).

b) If a rider does not participate in QSS1, he will be given the maximum time to complete it (30 minutes), plus the planned times of the liaisons plus a fixed penalty of 30 minutes.

c) Nevertheless, and in any of the circumstances mentioned above, the rider will be authorized to leave for the SS2 if he presents himself in the Park Fermé that precedes it, until 10 minutes before the scheduled time and since the organizer is informed (CROs, crobike.bajaportalegre@acp.pt, or by mobile, see appendix IV) of the intention to participate in the SS2 up to 30 minutes before the scheduled time for publication of the start list (as per schedule).

This rule

applies also to breakdowns in binding sectors provided the mentioned procedures are followed.

d) If a rider does not complete the SS2 within the time limit, he will be given the maximum time set for the SS plus the planned times for liaisons not made, plus a fixed penalty of 60 minutes.

e) If a rider does not participate in SS2, he will be assigned the maximum time set for the SS, plus the planned times for liaisons not made, plus a fixed penalty of 120 minutes.

f) Nevertheless, and in any of the above circumstances, will be authorized from Leg 2, provided that the respective motorcycle enters the Parc Fermé (Nerpor), at the normal time of operation of the same, or in the 10 minutes before the time of the first competitor (bike/quad or SSV) to the start of Leg 2 and provided that he informs the organizer (CRO) of his intention to participate in the next stage up to 30 minutes before the scheduled time for publication of the list with the starting times for the start of the stage.

g) In all situations the riders must start Leg 1 or remove their vehicle from the Parc Fermé (Nerpor).

Should this not be possible, the competitor must submit a request to the Jury, requesting participation in Leg 2, even if not taking the bike out of the Parc Fermé at Leg 1. If accepted, a penalty to be defined by the Jury will be applied, which will always be higher than those for the cases mentioned above.

The riders covered by this rule will go to the respective selective sector or step after the classified riders, in ascending order of their competition numbers.

16.9 In the event of a dead heat, at the end of the race will be decided in favour of the competitor who has achieved the best time on QSS1. If it prevails, it will favour the first rider to get the best time on QSS1.

16.10 Maximum Time and Fixed Penalties of the SS's

SS	KM	Maximum Time	Fixed Penalty
QSS1	5	30m	30m
SS2	70	120m	60m/120m
SS3	350	480m	120m

ART.17 – BRIEFING

17.1 The briefing will be written and delivered during administrative checks and published on the official board on the website and sportivity.

ART.18 – STARTING ORDER

18.1 The start for the Leg 1 and for the QSS1, will be given in ascending order of the competition numbers.

The order of the starts is: Category 1, 4, 5, 6 and 7 / Category 2 / Category 3.

There will be a 5-minute interval between the 3 Categories.

18.2 The start for SS2 will be given according to the classification obtained in QSS1.

The order of the starts is: Category 1, 4, 5, 6 and 7 / Category 2 / Category 3.

The intervals for the start of SS2 will be published by bulletin.

18.3 The start for Leg 2 will be given according to the classification obtained with the sum of the results obtained in SS1 and SS2 plus the hypothetical sports penalties.

Category 1, 4, 5, 6 and 7 / Category 2 / Category 3.

The Clerk of the Course may, for reasons of force majeure, change the order provided.

18.4 Liaisons and transport (see distances in Appendix IV):

All liaisons must be made using the competition vehicles, the use of trailers or vans is prohibited.

18.5 Any delay in the presentation at the start of any of the Stages (leaving the Parc Fermé) will be penalized with one minute for each minute of delay. A maximum delay of 15 minutes will be allowed. The start will be refused to any rider who is delayed.

ART.19 – TIME CONTROLS

According to Art. 82.20 of the FIM Bajas Regulations 2022.

ART.20 – SELECTIVE SECTIONS / ROUTE MARKING / PASSAGE CONTROL / INTERRUPTION OF SS / SPEED CONTROL ZONES / TYRES / NEUTRALIZATION / OTHER PROCEDURES

20.1 During a selective section, assistance is allowed as per article 15 of the present regulations.

20.2 Any rider refusing to start in a selective section at the time and in the position allocated to him/her shall be given a penalty which can lead to exclusion.

20.3 A maximum time will be given to run every selective section. This time will be published by bulletin and must not be exceeded; otherwise it can lead to exclusion.

20.4 The closing time of the different controls of the selective section will be calculated as follows:

$$T_n = T_o + T_m + 60 \text{ minutes}$$

T_n: Closing time of the control "n"

T_o: Starting time of the last vehicle

T_m: Maximum time at control "n" calculated according to the distance from the starting point and the minimum speed average established for the selective section.

20.5 Route Marking

Liaison section road books will be delivered to each competitor. The routes of SS's will be indicated by arrows, tapes, and paintings; there are no road book available (except Cat. 3).

The arrows will be placed as follows:

- Placement of **red plates with white arrow, 100 m before crossroads** (pre-indication of direction change)
- Placement of **yellow plates with black arrow** on the location of a change of direction
- Placement of plastic tapes (red and white ACP) **on the right side of the route**, normally every 400 m (should a competitor get lost, it will be easier to identify the correct direction, when returning to the route)
- Placement of plastic tapes to close the routes which are not to be used, and one yellow plate with a X, for the close routes
- Placement of plastic tapes "red and white" at dangerous places.
- Placement of plates with diverse information concerning possible danger (holes, wired fences, jumps, rivers, stones, etc.)
- Placement of plates with different information (CC, radios of the organisation, CP, distance to the next ZA)

20.6 Cross Roads Controls

- a) Controls will be set up in the intersection with asphalt roads or heavy traffic ways.
- b) these controls will be signaled as follows:
 - **CC (plate on place, with the number of the cross road)**
- c) Riders must respect the signs, namely the stop signs shown by the marshals, can result in exclusion. The vehicle must stop at these controls, unless otherwise indicated by the marshal.
- d) All the drivers, who present themselves at one intersection control in a direction different from the one defined by the itinerary, will suffer the same penalties as at a CC.

20.7 Passage Control (PC)

- a) To check that the crews are respecting the circuit, passage controls will be set up along the course. The riders must stop at these controls.
- b) The control zone will be indicated by means of standardized signals:
 - warning sign on a yellow background (beginning of the control area)
 - sign on a red background (position of the control post)
 - final sign on a beige background with three black transverse stripes (end of the control area)
- c) At the PC, riders may present themselves at any moment (within the limits ruled by article 20.4). The passage time will be registered on a plastic time card. Even in case of lack of the card, it is mandatory to stop at the control.
- d) In the compulsory passage controls, will be applied the speed control of 30 km/h. This start in the beginning of the Passage control (warning sign on a yellow

background), until the end (sign on a beige background with three black transverse stripes). **The presentation of the time card in these passage controls is the responsibility of the Rider. The same responsibility is applied for the fixation of the time card in the vehicle. If the Rider don't show the time card in a passage control, it will be applied 2 minutes' penalty for each control. If the Rider don't have the time card, the registration will be in his dorsal.**

In any cases, the responsibility of the Rider is verifying the registration of the passage control of the timekeeper is correct in a visible place and permanent.

- e) The lack of a registration in the time card or non-passage at a time control will incur into disqualification of the rider.
- f) Any rider not stopping at a time passage control shall be given a penalty as laid out below:

First infringement	5 minutes
Following infringements	10 minutes for each offence

- g) The number, location and closing time of the passage controls will be published by an amendment.

20.8 Interruption of a selective section

According to the spirit of this kind of event, crews are subject to unforeseen factors, which will have to be overcome by each one. Especially in the case of partial or total road obstruction by any kind of obstacle (for example: a car, a stream with too much water) it is up to the crews presenting themselves at such a point to try to clear the track and help the crews in trouble.

There will be no deductions regarding the time spent to run the circuit due to such conditions.

Nevertheless, bearing in mind the special conditions of this kind of event, and in rare occasions as a serious accident or a deep change of the weather conditions or any other case of exceptional nature, the rally may be interrupted.

Should this happen, the following procedures will be taken:

20.9 In a selective section the course between two successive time controls shall be defined as a "sub-section". A sub-section will be any part of the circuit of the selective section between:

- a) The starting time control and the first passage time control;
- b) Two successive passage time controls;
- c) Any time control (start or passage) and an eventual passage time control (emergency) set up as per decision of the clerk of the course for regrouping or neutralization.
- d) A new starting time control (emergency) resulting from the race's neutralization (as per the previous item) and the time control (passage or arrival) immediately after;
- e) The last passage time control and the arrival time control at the end of the selective section.

The interruption of a selective section may affect:

- a) The whole selective section if there are no passage time controls
- b) A single sub-section

20.11 In the case foreseen in Art. 20.8 the Jury of the race will determine that the classification in the selective section for those competitors who could not run the sub-section in normal racing conditions will be the sum of the times registered:

- between the start time control of the selective section and the time control where the race was interrupted;
- between the new start time control and the arrival time control at the end of the selective section and the imaginary time attributed to the sub-section that was not entirely covered by all competitors.

20.12 To the competitors having covered the whole of the selective section (without interruption) the time considered will be the time set between the start time control and the arrival time control of the selective section.

20.13 Should the Jury of the race, by reasons of force majeure (superior force), decide to withdraw a sub-section in which the sporting truth was not respected, the classification in the selective section will be equal to the sum of the times set:

- between the start time control and the passage time control immediately before the point where the race was interrupted;
- and between the passage time control immediately after the point where the race was interrupted and the arrival time control of the selective section.

In this case, a new start of the selective section should be given at the passage time control immediately after the point where the interruption took place.

To those competitors having covered the whole of the circuit without any interruptions, the time set by each one, between the passage time controls immediately before and after the point of interruption, shall be deducted from their total time set.

20.14 These procedures can be adopted besides the number of competitors that have done the passage in race conditions or that have been affected by the interruption of the race, this means, that have or haven't passed the obstacle or alteration of track that motivated the lock in of the other competitors.

20.15 Permitted early check-in

V4 (park fermé after the scrutineering), TCS1, TC1B, TC2B, TC2C, TC3B

20.16 Classification

The final classification will not be distributed after the event. The final classification will be published on the website on the Digital Notice Board: www.bajaportalegre500.com or Sportity.

20.17 Speed Control Zones

For the control of these zones the Anube Stella III system will be used. The start of the speed zone control will be indicated in the Road Book by a box marked “SZ” and the maximum speed authorized. The end of the speed control will be indicated in the Road Book by a box marked “FZ”. Panels will also be placed at the beginning and end of each zone, together with others informing the maximum allowed speed. These panels are for reference only, have no regulatory validity, the information given by the Anube equipment will prevail.

20.18 Speed Control Zones Penalties

According to Art. 82.19 of the FIM Bajas World Cup Regulations.

20.19 Tyres

In accordance with Art. 47.05 from FIM Bajas Technical Rules.

20.20 Neutralisation

Time that competitors are neutralized, by decision of the Clerk of the Course, in a parc fermé regime.

A neutralization can be used in the following moments:

- Liaisons between SS
- Time of refuelling

If the refuelling is within a neutralization between SS's, the time allowed between the end of one SS and the departure of the next SS, will consider the distance to be made between the two locations and the time of refuelling (10 minutes).

Procedures:

The arrival of the SS is made for the Stella III or Spica III.

The start for the next SS is the pilot's responsibility.

The Stella III or Spica III will indicate, in decreasing form, the authorized time between the end of the SS and the sign with the yellow start flag clock placed 100m from the start to the next SS.

At the place of start, a sign with a red clock and another with the flag start of will be placed.

Between the yellow clock sign and the departure signs, competitors can only access 5 minutes before their start time.

Competitors must put themselves on the starting line and must only proceed when the hour indicated on the clock coincides with that of the competitor, hour, minute and second.

At the start, a digital clock will be placed to assist competitors.

The early departure is subject to penalties to be defined by the Jury.

ART.21 – SAFETY

21.1. Retirement / Exclusion

- a) In case of retirement, the rider must compulsorily give notice to the organising committee, as soon as possible.
- b) A retired rider or one that has been excluded must compulsorily leave the circuit and remove the plates with the race numbers from the vehicle, delivering the letter of withdrawal to the first official.
- c) Whatever the reason may be and namely in case of retirement of the crew it is absolutely forbidden to the service crews to enter the circuit before it has been opened to traffic.

21.2. Opening of the route

The organiser's sweeper vehicles will close the circuit after all the competitors have passed. They will provide transport for the riders whose vehicles may be damaged, but they will in no case be responsible for repairing or towing the damaged vehicles. The riders, who refuse to accept this transport, will be responsible for their own transportation.

21.3. Competitor Localization System Stella III and Spica III / SSV and Quads Overtaking System and Speed Control

The use of the Stella III (for Quad and SSV) and Spica III (for Bikes) localization system's is mandatory.

This system allows checking the position of each rider on the course. The equipment has a rental cost include of the entry fees.

The equipment also allows to check the time a rider stopped next to another rider for assistance. The time will be taken off at the end of the event. Therefore, the concerned rider shall request the correction of the time in written to the Clerk of the Course, which will be decided by the FIM International Jury. This stopping time will only be recovered if the reason for stopping is accident assistance and justified by the means of the organization that occurs to the place.

Instructions for use are described in the Appendix V of this regulation.

- 21.4** A second equipment, Spica III, will be distributed to the Motorcycles and Quad, this equipment must be carried by riders during the entire race, under penalty of 10 minutes for infraction.

- 21.5** According to the Art. 82.27, for the entire course, the wearing of a waistcoat or airbag jacket, back and chest protection is compulsory, under pain of disqualification. The airbag system must comply with FIM standards (please refer to the FIM Bajas World Cup Regulations and FIM Bajas Technical Rules).

The list of airbags is available here:

<https://www.fim-moto.com/en/documents/view/list-of-airbags-elegible-for-rallies-bajas-competition>

ART.22 – MEANS OF COMMUNICATION

22.1 The use of a mobile phone may be permitted to contact the organising committee in case of accident or emergency.

ART.23 – PARC FERMÉ

23.1. “Parc Fermé”: zone in which no repairs or intervention is possible, except in specific cases clearly determined by these regulations.

23.2. Any infringement of the “Parc Fermé” rules shall result in a penalty of 1 hour to exclusion.

23.3. As soon as the rider has parked his vehicle in the Parc Fermé, he/she must leave the Parc Fermé immediately and will not be allowed to re-enter it.

23.4. In order to remove his/her vehicle from a Parc Fermé for the start of a leg or regrouping halt, the rider shall be allowed to enter the Parc Fermé 10 minutes before his starting time.

23.5. Quads can only be moved with engine on inside the Parc Fermé under respect of a speed lower than 10 km/h and guaranteeing the security of third parties.

23.6. After the conclusion of the rally, riders may remove their vehicles from Parc Fermé 30 minutes after the publication of the official classification. To remove the vehicle, the rider or his/her representative must present the identification bracelet.

23.7. The surveillance of Parc Fermé will cease at 24h00m, October 29.

ART.24 – PROTESTS / APPEALS

24.1 According to Art. 82.33 of the FIM Bajas Regulations 2022.

ART.25 – PRIZE LIST

25.1 General Classification

General Classification	1 st – 10 th	Trophy or cup
Category 1	1 st – 3 th	
Category 2	1 st – 3 th	
Category 3	1 st – 3 th	
Category 4, 5, 6 and 7	1 st

Appendix 6 KIT for compulsory installation of STELLA III System

1 – Iridium Antenna / 2 – Power Cord / 3 – RF Cord / 4 – RF Antenna/ 5 – Base/Mount
6 – GPS Antenna / 7 – Adhesive / 8 – Straps / 9 – User Manual

IMPORTANT

For the functional test and verification, all vehicles must have through the installation of the mount, power cord, and antennas.

1. POWER CORD

- Connect the red wire to the positive end of battery 12V (+), and the grey wire to the negative (GRD). The power cord must be connected directly to the battery (without interruptions and without contact in the power supply).

- A 3A fuse (not included) should be connected to the red wire.

- Take the cord to the location in which the STELLA III EVO is to be installed. All other wires must be insulated, they cannot touch

2. BASE / MOUNT

ATV: The mount can be attached to the handle bar or to a metal plaque close to the navigation system.

- Car and SSV: The mount can be attached to the panel, or to the roll cage bars. STELLA III EVO buttons, must be visible and accessible to the participant (pilot/navigator) even when they are sitting and with the seatbelts buckled.

IMPORTANT

Leave the cords (antenna and battery) in place with at least 10 cm to spare for easy handling. At least 5 cm of space behind the mount (bottom right corner) to allow space for power cord/connections.

3. GPS ANTENNA

- The GPS antenna must be installed horizontally and without obstructions toward the sky. In cars and SSV, it can be mounted on the roof, the hood, or the dashboard. In ATV, attach to the mudguard. For additional firmness, it is recommended to cover it with adhesive tape (non-metallic when mounting it to a metallic surface) and pull-up (when attached to soft or plastic parts).

4. IRIDIUM ANTENNA

The Iridium antenna must be installed horizontally and without obstructions toward the sky. In cars and SSV, it can be mounted on the roof, the hood, or the dashboard. In ATV, attach to the mudguard. For additional firmness, it is recommended to cover it with adhesive tape (no metallic when mounting it to a metallic surface) and pull-up (when attached to soft or plastic parts).

THE USE OF THE TRACKING SYSTEM & ACCIDENT RESPONSE & CAR-TO-CAR COMMUNICATION SYSTEM 5. GPS ANTENNA

The radio-frequency antenna must be installed vertically to the roll cage bars (cars and SSV) and the (ATV). It is mandatory to use separators (included in kit) to avoid contact with metallic parts and the carbon that surrounds it.

Once the antennas are mounted, take the SMA connection cords to the base/mount where the STELLA III EVO will be installed.

acpmotorsport@acp.pt

5 – Radio communication system

Four radio channels under Race Control supervision

- Channel 1 – Organization
- Channel 2 – Passage controls
- Channel 3 – Radio Points
- Channel 4 – Medical Team

6 – Medical equipment available

- 1 Medical Helicopter, with one Doctor
- 6 medical Teams, of one Doctor and one paramedic on 4Wheel Drive vehicles
- 10 ambulances
- 1 Medical Centre on Nerpor

7 – Location of the medical vehicles

- On the special stages, there will be one medical vehicle every 40 km's (minimum).
- One medical vehicle at the start and at the arrival of each special stage (or the Medical Assistance is given by the Medical Centre)

8 – Location of the passage control vehicles

In each special stage there will be:

- A car equipped with radio every 15 km (average)

Every intersection with an asphalt road will be monitored together with the police

9 – Safety of the crews

All competition vehicles will compulsorily be equipped with a tracking system.

10 – Rescue equipments

Medical Vehicles

- 4 wheel drive vehicles
- with a Team of one Doctor and one Paramedic on board
- with a fuel capacity for 400 Km
- with a reserve of drinkable water for the Competitors
- with the possibility to transport an injured person lying down
- with 1 radio in permanent contact with the Race Control
- with 1 mobile phone

Rescue Equipment of the Medical Vehicles

- 1 “reanimation box”;
- Intubations material;
- Urgent indictable;
- Diagnostic material;
- 1 survival mattress;

Medical Helicopter Equipment

Similar equipment as the medical cars

- 1 portable suction machine;
- 1 respiratory fan;
- 1 Doctor qualified in reanimation

Medical Centre

Similar equipment as the vehicles and Helicopter, and also:

Material:

- 1 tent
- supplementary medications and material
- 1 stretcher

Specialized Persons

- 1 Chief Doctor
- 1 Doctor qualified in reanimation
- 1 Paramedic

11 – Closing of the route

An Organization “sweeper” vehicle will close the route of the event, as notified in the road-book.

This vehicle will pick up the people whose vehicle is broken down or out of service, but in no case, broken-down vehicles will be towed.

Drivers who refuse to be transported by the sweeper vehicle do so under their own responsibility, and they must sign a discharge that will be handed to them by the route-closing members of the organization.

No claim based on the consequences of this refusal may be directed against the Organization. In case of retirement due to a mechanic failure on the special stage, the competitor must wait for the sweeper vehicle.

12 – Safety of the public

In all spectators areas there will be a team of the Organisation, with radio, and the National Guard (GNR). Both on close contact with the Chief Safety Officer, for any reinforcement needed.

13 – Safety of the officials of the event

Members of the Organisation, using mobile phones, will accompany all Officials.

Some additional information will be given, to the Officials of the Event, on October 26th:

- 1 – Programme
- 2 – Itinerary (map of controls)
- 3 – Rally officials phone numbers
- 4 – Emergency Phone numbers
- 5 – Safety Plan description
- 6 – Maps – Bivouac and HQ
- 7 – Maps – each SS and the Spectators areas
- 8 – Safety Plan synopsis
- 9 – Time average of competitor's in each SS

- 10 – Radio Network
- 11 – Official authorizations granted
- 12 – Hospitals and medical centres on duty
- 13 – Insurance of the event
- 14 – Environmental policy
